

# Madelon Hulsebos

Amsterdam, Netherlands | m.hulsebos@uva.nl | madelonhulsebos.github.io

Interested in systems that capture table semantics using machine learning, and down-stream applications like data integration, search and validation. My research is motivated by challenges faced in practice.

## EDUCATION

---

University of Amsterdam – Amsterdam, Netherlands

*PhD, Computer Science*

2020 – present

Delft Institute of Technology – Delft, Netherlands

*MSc, Computer Science*

2016 – 2018

*BSc, Technology, Policy and Management*

2011 – 2015

## ACADEMIC EXPERIENCE

---

University of Amsterdam – Amsterdam, Netherlands

*PhD Researcher, INDE Lab*

2020 – present

- Proposed a research agenda aimed at building a dataset and systems for detecting table semantics in practice.
- Advised by Prof. Paul Groth and co-advised by Çağatay Demiralp from Sigma Computing.

Massachusetts Institute of Technology – Cambridge, Massachusetts, United States

*Visiting Collaborator, MIT Media Lab*

2018 – 2019

- Led and maintained a research project on semantic table understanding.
- Contributed to a data visualization training and benchmarking dataset.

## INDUSTRY EXPERIENCE

---

Sigma Computing – San Francisco, California, United States

*Research Intern*

2021 – present

- Developed a framework and system for deploying semantic table understanding systems in practice.
- Contributed to an interactive business analysis system.
- Published the resulting papers at the Conference of Innovative Data Systems Research.

KPN, HEINEKEN – Rotterdam, Amsterdam

*Data Scientist*

2019 – 2021

- Developed and integrated an ML system for financial forecasting that produced more accurate forecasts.
- Built two ML tools for evaluating marketing campaigns based on causal inference and Bayesian modeling.
- Mentored junior data scientists and analysts, initiated a reading group and implemented scrum processes.
- Gave presentations and tutorials on data validation, software practises and transfer learning.

## TEACHING EXPERIENCE

---

Delft Institute of Technology – Delft, Netherlands

*Graduate Teaching Assistant, Pattern Recognition & Web Information Systems groups*

2017 – 2018

- TA for the MSc courses: Pattern Recognition (IN4085), Web Science & Engineering (IN4252).
- Supported 250+ graduate students throughout projects and lab sessions.
- Evaluated student assignments, projects and presentations.

Aalto University – Helsinki, Finland

*Research and Teaching Assistant, Machine Learning for Big Data*

2017

- Developed assignments for the course “Machine Learning: Basic Principles” (CS-E3210) with 500+ students.
- Conducted experiments for semi-supervised learning over networks and presented the work at ICASSP.

## ACADEMIC SERVICE

---

Program committee, WWW (Industry track)

2022

Program committee, EDBT (Industry track)

2022

Reviewer, NeurIPS (Datasets & Benchmarks track)

2021

Organizing committee, SemTab challenge

2021

## BOARD MEMBERSHIP

---

UniPartners Delft – Delft, Netherlands

*Supervisory Board Member*

2017 – present

- Supervise the financial and strategic positions of the company.
- Implemented structured financial control, KPI oriented leadership and a supervision cycle.

*Executive Board Member*

2015 – 2016

- Controlled and optimized the quality of internal and external products and processes.
- Daily management of projects, contributing to a revenue of over €100 K.
- Moderated the CRM system (Salesforce) and trained 10+ boards.
